

Top Tips For Using This Petition

This petition is designed to be used the weekend of 30/31 October. Using pretty much this text, Wrexham Peace & Justice Forum collected 450 signatures in 2 hours recently.

1) One reason for their success is that they had a **huge poster version** of the text behind them so that people knew what they were signing. People were queueing to sign.

So JNV has included on the next page full A4 size versions of the text, for you to enlarge to A3 or larger size (some photocopy shops can enlarge to A1).

2) Please do let the **local radio and newspapers** know about your petitioning, and take your own photos to send to the paper if they do not send a photographer themselves. Whatever the response of your local MP when you present the petition, that is worth press releasing also.

3) Please let Justice Not Vengeance (info@j-n-v.org 0845 458 9571) know the results of your petitioning. If you have any suggestions for improving the petition or how to present it on the street/at work, please let us know.

This petition initiative came out of an emergency meeting called by Voices in the Wilderness UK. There may be further editions of this petition in future weeks.

Please check out the JNV website <www.j-n-v.org> and the Voices UK website <www.voicesuk.org> for more campaigning information.

Thank you.

Petition To Our Local MP

Please tell Geoff Hoon:

**Don't let British Troops
support Bush's massacres in
Iraq's cities.**

**The senseless slaughter of
civilians is making a desperate
situation even worse.**

Don't Attack Fallujah—Recall The Black Watch
